Multiple Systems, Variables,
Considerations in Rheumatic diseases

Under the aegis of

UDAIPUR
CHAPTER

In association with

INDIAN RHEUMATOLOGY
ASSOCIATION

WELCOME TO UDAIPUR

SUNDAY, 2ND OCT '22
9:00 AM TO 1:30 PM

HOTEL RADISSON
ASHOK NAGAR, UDAIPUR

WELCOME MESSAGE

Society of Pain & Arthritis and API Udaipur Chapter welcome you to the Rheumatology Pearls 2022.

This year's theme underscores that:

- As multiple systems are involved in rheumatic diseases, each patient must be assessed with thorough history and targeted clinical examination.
- As there are multiple variables unique to the individual, management of a particular rheumatic disease needs to take them in to account to form a personalised care plan.
- Non autoimmune rheumatic diseases such as Fibromyalgia and Gout can cause significant musculoskeletal morbidity.

We invite you to join us for this academic feast.

Thanks,

Organizing Team
